

Wedding gift globe

Instructions No. 2852

The wedding is the beginning of the journey through a new phase of life. We have turned the globe into a companion and created the perfect wedding gift. It's as easy as that: Give the globe a new look with permanent spray from edding and design it to your heart's content with gloss paint markers. If you cut a slit in the globe, you'll also have an attractive money box for the wedding table into which guests can deposit their gifts of money. The permanent spray covers immediately and has a short drying time, so you can quickly continue with the actual colour design. You can decorate the globe with all kinds of motifs: Wedding symbols, greetings, wishes and much more are suitable and can be easily implemented with the glossy paint markers. The lacquer-like opaque colours look great on the black background. We offer the markers in different line widths, from 0.8 mm for very fine drawings to 4 mm if you want to apply thicker lines.
