

# Wooden box with resin glaze

Instructions No. 2427

Difficulty: Advanced

Working time: 6 Hours

This **beautiful box** has a great shiny surface - designed with **resin**. So you can design the lid according to your wishes and the **shiny protective layer** protects and looks very classy. The box is perfect for gift wrapping or as a sweet box as well as a gift of money.

This is how the box is designed:

First paint the **surface of the lid** of the **wooden box** in the colour of your choice. We chose the colour "berry" for our box.

After the paint has dried, you can write on the lid with a **Posca marker** or embellish it with a drawing. It looks especially nice if you draw shadow lines with a fine micron pen.

Now sprinkle some **glitter** on the surface.

Mix the coating **resin** according to the instructions. Drop and spread it onto the lid using a pipette. It is important that the box is completely straight so that the resin does not run down.

Nach dem vollständigen Durchtrocknen des **Überzugsharzes** können Sie die Box nun noch weiter verschönern. Sie können zum Beispiel **Bänder** und **Streuteile** aufkleben. Für das Aufbringen eines Bandes wird an den Rand des Deckels doppelseitiges **Klebeband** geklebt. Die Schutzfolie des Klebebands abziehen und das Deko-Band auf die Klebefläche drücken.

## Must Have

Glass' Gel coating resin gel, 150 ml

23,99 €
