Macramé Belt

KNOTS USED:

Lark's head knot
Double half hitch knot
Gathering knot

PREPARING OUR WORKSPACE

To carry out this work, it is advisable to do it by hanging the hoop from a macramé frame, rack or coat rack, or any part of your house with light where you can hang it.

When working with such long ropes, it is preferable to hang them high, and work standing or sitting.

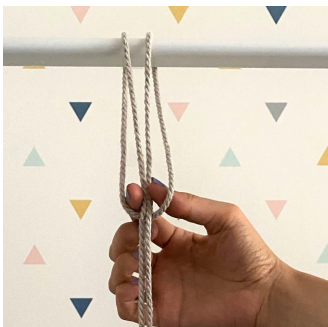

BEFORE STARTING

Cut 5 long ropes (7 meters each) and 2 short ropes (75 cm each).

STEP BY STEP:

STEP 1:

Fold all the 7m cords in half and use a **lark's head knot** to attach the cords to the stick or working base.

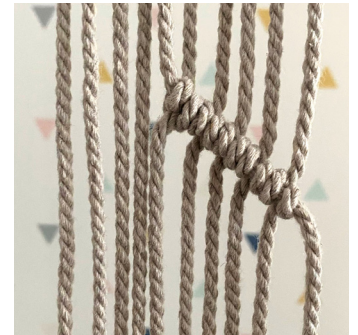

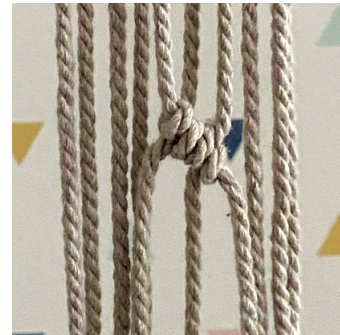

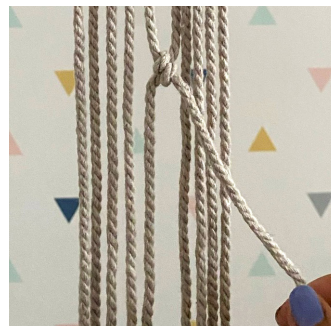

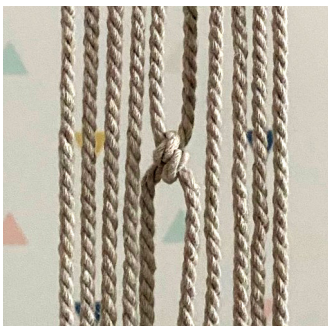

STEP 2:

Leave 45cm free space.

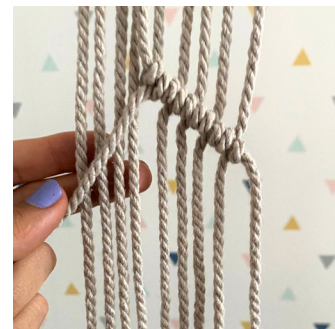

STEP 3:

Grab the 6th rope on the right, this will be our lead cord. We work a **diagonal double half hitch knot** diagonally on this lead cord with the 5 next cords right.

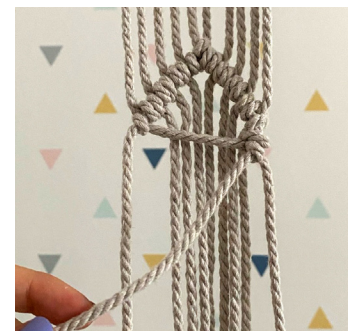

STEP 4:

Grab the 5th rope on the left, this will be our lead cord. We work a **diagonal double half hitch knot** on this lead cord with the 4 next cords left.

STEP 5:

Grab the rope on the right, this will be our lead cord. We work a **diagonal double half hitch knot** on this lead cord with the 2nd, 3rd, 4th and 5th cords left.

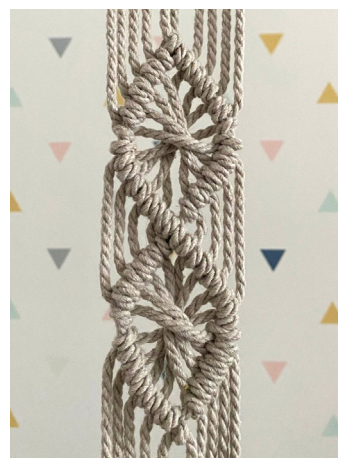

STEP 6:
Grab the rope on the left, this will be our lead cord. We work a **diagonal double half hitch knot** on this lead cord with the 2nd, 3rd, 4th and 5th cords right that were behind the belt.

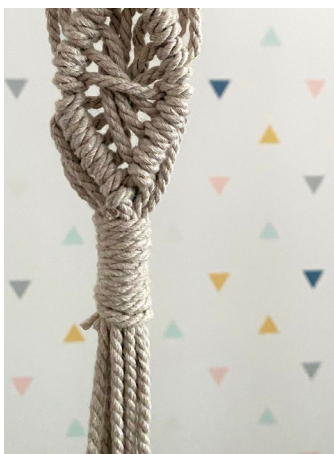

STEP 7:
Repeat steps 3 to 6 a total of 10 times (approximately 65cm long). Grab the 6th rope on the right, this will be our lead cord. We work a **diagonal double half hitch knot** on this lead cord with the next cord right.

STEP 8:
Finish at the end with a **gathering knot** using new piece of rope that's 75cm.

STEP 9:

Make a **gathering knot** on the top the belt with another 75cm rope. Cut the end strings to desired length.

WASHING ADVICE

Always wash in as warm a water temperature as possible - up to the temperature recommended, with a short spin. Use a lot of water if hand washing. For darker colours we recommend the use of discolouration sheets. Do not bleach.

Do not tumble dry. Drip-dry on a horizontal surface. Iron on a hot temperature setting using a damp cloth. Professional dry cleaning in tetrachloroethylene.
